

Selected for the "Asia IP Elite 2024"

THE ASIA
IP ELITE

In June 2024, NTT (NTT's holding company and DOCOMO) was selected for the "Asia IP Elite 2024" by IAM (Intellectual Asset Management, headquartered in London, UK), an internationally renowned IP media company. The award recognizes companies and organizations that have placed intellectual property at the center of their business strategy to introduce representative initiatives in IP creation in the Asia-Pacific region. A total of 93 companies and organizations were selected this year (25 companies are from Japan).

NTT was selected for two achievements: (1) the disclosure of intellectual property information in accordance with the Corporate Governance Code introduced by the Financial Services Agency in 2021 and (2) DOCOMO's pool licensing activities for 4G standard essential patents related to smart meters. The second achievement was specifically attributed to DOCOMO's efforts. NTT has been selected for two consecutive years since 2023, while DOCOMO was independently selected in 2022 as well.
