Notes

[Application for d Wi-Fi]

- There is no usage fee.

- To subscribe to d Wi-Fi, it is necessary to become a d POINT CLUB member, create a d ACCOUNT, and register a d POINT CARD.

- If you cancel your d POINT CLUB account or d POINT CARD after subscribing, this service is also automatically canceled.

- To apply for the service, a customer is required to consent to the third-party provision of the customer's personal data including location information as stipulated in the "matters of consent for handling of personal data". A customer can confirm the information and change your agreement at the personal dashboard on DOCOMO website.

## [Use of d Wi-Fi and d ACCOUNT/d Wi-Fi password]

- To use the service, d ACCOUNT and d Wi-Fi password (please note that it is not the same as d ACCOUNT password) are necessary. SIM authentication is available without these credentials.

- You need to register your d Wi-Fi password on the d Wi-Fi setting site.

- Please carefully handle your "d ACCOUNT," "d Wi-Fi password," and "security key" on your responsibility so they do not become known to others.

- "docomo Wi-Fi" service specifications work prior to d Wi-Fi ones when you have both subscriptions and use SIM authentication.

## [Content Filters Option]

- The Content Filters Option blocks access to harmful sites. Subscription to this option is recommended for minors.

- DOCOMO may restrict browsing of sites that are judged to clearly include images that significantly infringes the rights of children by the Internet Content Safety Association (ICSA) that is designated by DOCOMO to prepare and manage a list of child pornography website addresses.

## [Wi-Fi Spots/Transmission Speed]

- This service offers internet connection using wireless LAN IEEE802.11a/b/g/n/ac/ax.

- Services are provided on a best-effort basis; actual transmission speeds may vary on network traffic, transmission environments or devices used when connecting to the internet network.

- Even in a service area, speeds may be limited (restricted) depending on the type of wireless system.

- If you move to an area where radio wave signals are weak, communication may be interrupted.

- Service may not be available due to maintenance.
