

## Earnings Release for the Nine Months Ended December 31, 2005

Consolidated financial results of NTT DoCoMo, Inc. and its subsidiaries (collectively "we" or "DoCoMo") for the nine months ended December 31, 2005 (April 1, 2005 to December 31, 2005), are summarized as follows.

## << Highlights of Financial Results >>

- For the nine months ended December 31, 2005, operating revenues were \(\frac{\pmathbf{x}}{3},582.2\) billion (down 1.7% compared to the same period of the prior year), operating income was \(\frac{\pmathbf{x}}{6}93.5\) billion (down 7.7% compared to the same period of the prior year), income before income taxes was \(\frac{\pmathbf{x}}{8}11.2\) billion (down 35.1% compared to the same period of the prior year) and net income was \(\frac{\pmathbf{x}}{5}16.4\) billion (down 31.7% compared to the same period of the prior year).
- Earnings per share were ¥11,352.77 and EBITDA margin\* was 34.7%, down 1.1 points compared to the same period of the prior year.

## Notes:

- 1. Consolidated financial statements in this release are unaudited.
- 2. Amounts in this release are rounded off.
- \* EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of EBITDA, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on page 15.

### << Comment from Masao Nakamura, President and CEO >>

In the third quarter of the fiscal year ending March 31, 2006, we endeavored to reinforce our competitiveness by revising our rate structure and introducing new rate plans such as the "Fami-wari Wide" discount package, and improve our service portfolio through the launch of "Push Talk", "ToruCa" and other new services in conjunction with the release of our latest FOMA 902i series handsets. At the same time, we stepped up our efforts to further improve our network quality and after-sales support. As a result of these actions, our cellular churn rate dropped to 0.72% in the third quarter, and we successfully slowed the decline in MOU and ARPU compared to the same period of last fiscal year.

For the first nine months of this fiscal year, our operating revenues and our operating income decreased by \(\xi\)60.9 billion and \(\xi\)57.9 billion, respectively, from the same period of last fiscal year to \(\xi\)3,582.2 billion and \(\xi\)693.5 billion. However, the year-on-year reduction in cellular service revenues was limited to \(\xi\)1.3 billion, slowing the pace of decline compared to the first six months of the fiscal year. We are endeavoring to meet our consolidated financial forecast for fiscal 2005 announced on October 28, 2005.

The "i-channel" service has made a good start after its launch in September 2005, with its subscriber base topping the one million mark on January 22, 2006. We are moving toward our goal of transforming our cellular services into a lifestyle infrastructure. In terms of accomplishments to date, we commenced a new service allowing subscribers to use their cellular phones as credit cards under the brand name "iD" on December 1, 2005, and our user-base of i-mode FeliCa-enabled handsets topped 10 million on January 26, 2006. Furthermore, to allow more subscribers to use our service as a multi-functional tool in everyday life with fewer concerns over their phone bills, we decided to lift restrictions on subscriptions to our "pake-houdai" service starting from March 2006, which will enable any FOMA subscriber to join the i-mode flat-rate plan regardless of their billing plan. In addition, in order to strengthen our core business and expand our business domain to promote growth for the future, we decided to invest in a number of companies, including both domestic and overseas partners.

The competitive environment in the Japanese cellular phone market is expected to become even harsher with the scheduled introduction of mobile number portability in less than a year, but we are committed to taking steady and proactive measures to address all issues and build up comprehensive strength, putting customers at the center of our decisions.

## << Operating Results and Financial Position >>

#### 1. Business Overview

- (1) Operating revenues totaled \(\frac{\pmathbf{4}}{3}\),582.2 billion (down 1.7% compared to the same period of the prior year).
  - Cellular (FOMA+mova) services revenues were ¥3,130.3 billion. Cellular (FOMA+mova) services revenues were sustained at the same level compared to the same period of the prior year, as a decline in ARPU resulting from our rate reductions such as the amendment of our billing plans, was offset by the acquisition of new subscribers and lowered churn rate driven by the reinforcement of our core business.
  - Voice revenues from FOMA services increased to ¥819.1 billion (up 146.8% compared to the same period of the prior year) and packet communications revenues from FOMA services increased to ¥422.2 billion (up 152.8% compared to the same period of the prior year) owing to a significant increase in the number of FOMA services subscribers, which resulted from the release of new handsets such as the "FOMA 902i" series and further improvements in network quality.
  - Although the sales of handsets related to the migration of subscribers from mova services to FOMA services were continuously strong, revenues from equipment sales decreased to ¥353.2 billion (down 13.6% compared to the same period of the prior year) due to a decrease in the total number of handsets sold.

Other revenues (i)		66.2		56.5		9.6	17.1
Equipment sales		353.2		408.6		(55.4)	(13.6)
Total operating revenues	¥	3,582.2	¥	3,643.1	¥	(60.9)	(1.7%)

#### Notes:

- (i) For periods beginning after March 31, 2005, Quickcast services revenues, which were presented separately in the past, are included in "Other revenues," and international services revenues, which were previously included in "Other revenues," are included in "Cellular (FOMA+mova) services revenues." However, international services revenues related to FOMA services are not included in FOMA services revenues for the nine months ended December 31, 2004 because such information was not previously maintained. (Quickcast services revenues are reclassified and included in "Other revenues" for the nine months ended December 31, 2004.)
- (ii) Voice revenues include data communications revenues through circuit switching system.
- (2) Operating expenses were \(\frac{4}{2}\),888.8 billion (down 0.1% compared to the same period of the prior year).
  - Personnel expenses were ¥186.6 billion (down 0.2% compared to the same period of the prior year). The number of employees as of December 31, 2005 was 22,357.
  - Non-personnel expenses were \(\frac{\pmathbf{\frac{4}}}{1,835.3}\) billion, approximately at the same level compared to the same period of the prior year. A decrease in sales-related expenses due to the decline in the number of handsets sold was offset by increases in other non-personnel expenses, such as provision of free-of-charge battery packs and extension of free warranty period for handsets.
  - Depreciation and amortization increased by 0.6% to ¥532.0 billion compared to the same period of the prior year due to the effect of shortened useful lives of assets associated with the renewal of IT systems.
  - Impairment loss represents the impairment of PHS related assets, which were acquired during the nine months ended December 31, 2005.

<breakdown expenses="" of="" operating=""></breakdown>	Billions of yen				
	(UNAUDITED) (UNAUDITED)				
	Nine months ende	Nine months ended		Increa	se
	December 31, 200	December 31, 2004		(Decrea	ase)

Impairment loss	0.7	_		0.7	_
Loss on disposal of property, plant and					
equipment and intangible assets	26.3	33.5		(7.2)	(21.5)
Communication network charges	280.2	280.9		(0.7)	(0.3)
Taxes and public dues	27.7	26.6		1.0	3.9
Total operating expenses	¥ 2,888.8	¥ 2,891.7	¥	(3.0)	(0.1%)

- (3) Operating income decreased to ¥693.5 billion (down 7.7% compared to the same period of the prior year). Income before income taxes decreased by 35.1% to ¥811.2 billion compared to the same period of the prior year mainly due to the fact that gains on sale of Hutchison 3G UK Holdings Limited shares (¥62.0 billion) and of KPN Mobile N.V. shares (¥40.0 billion) during this period were less than the gain on sale of AT&T Wireless Services, Inc. shares of ¥501.8 billion during the same period of the prior year.
- (4) Net income was ¥516.4 billion (down 31.7% compared to the same period of the prior year).

### 2. Segment Information

(1) Mobile phone business

Operating revenues were ¥3,521.5 billion and operating income was ¥697.9 billion.

- Cellular (FOMA) services
  - In October 2005, we released the "FOMA SA700iS" handset, which was the first FOMA handset with navigation function (GPS capability), and the "FOMA P701iD" handset featuring simple and elegant design. In and after November 2005, we released the "FOMA 902i" series handsets, which are compatible with the "PushTalk," walkie-talkie-style communication service that allows as many as five users to speak simultaneously, and the "ToruCa" service that enables users to obtain information such as promotional coupons and store guides by simply holding their handsets against dedicated reader/writers. To satisfy customers' taste, we enhanced our handset lineup by releasing the "prosolid II," which was the thinnest and camera-less FOMA handset in November 2005; the "Music Porter II," which enables users to listen to music continuously for up to 20 hours, in December 2005; and "Raku Raku PHONE Simple," a simple function handset specialized in voice communication, in December 2005. The number of FOMA services subscribers increased to 20.13 million as of December 31, 2005.
  - Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA) services were ¥5,850,
     ¥3,050 and ¥8,900, respectively.
- Cellular (mova) services
  - In October 2005, we released the "RADIDEN," which is the first handset in the world equipped with tri-band tuner (AM/FM radio and audio from TV). Due to continuous progress in the migration of subscribers from mova services to FOMA services, the number of mova subscribers decreased to 30.24 million as of December 31, 2005.
  - Voice ARPU, i-mode ARPU and aggregate ARPU of cellular (mova) services were \(\frac{\pma}{4}\),770, \(\frac{\pma}{1}\),320 and \(\frac{\pma}{6}\),090, respectively.

- In addition, in both FOMA and mova services, we launched new simpler and easier-to-understand billing plans, and upgraded the "Ichinen Discount" by providing our long-term subscribers with further favorable discount rates in November 2005. Starting December 1, 2005, we enhanced the existing "Family Discount" by launching the "Fami-wari Wide" discount plan for children through junior high school age, seniors aged over 60 and subscribers with special needs qualified for "Hearty Discount." We also launched the "DoCoMo Business Premier Club" service for business accounts. The aggregate number of the FOMA and mova services subscribers surpassed 50 million in November 2005.
- Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA+mova) services were ¥5,110, ¥1,860 and ¥6,970, respectively.
- Churn rate for cellular (FOMA+mova) services for the three months and nine months ended
   December 31, 2005 was 0.72% and 0.78%, decreases of 0.23 points and 0.25 points compared to the same period of the prior year, respectively.

### • i-mode services

- Toward promotion of "Osaifu-Keitai\*" usage, we launched the new "iD" credit card brand for card issuers, which enables users to make speedy payments without signature, simply by holding the handsets against dedicated reader/writers at stores, in December 2005. As of December 31, 2005, the number of subscribers using i-mode-FeliCa-compatible handsets reached approximately 9.2 million and the number of "Osaifu-Keitai\*" compatible shops and vending machines increased to approximately 28,000 and 6,800, respectively. The number of i-mode services subscribers reached 45.62 million as of December 31, 2005.
- As for global development, O2 plc, a UK-based carrier, launched i-mode services in the UK and Ireland in October 2005. StarHub Ltd., a Singaporean carrier, also launched i-mode services in November 2005. As a result, i-mode services have been rolled out in 15 countries and areas including Japan as of December 31, 2005.
  - \* "Osaifu-Keitai" refers to mobile phones equipped with a contactless IC chip, as well as the useful function and services enabled by the IC chip. With this function, a mobile phone can be utilized as electronic wallet, a credit card, an electronic ticket, a membership card, an airline ticket, and more.

#### • International services

- In December 2005, to further improve the convenience of our subscribers, we lowered rental charges for outbound international roaming handsets used for the "WORLD WING" service for FOMA service subscribers and "WORLD WALKER-PLUS" service for mova service subscribers, if applications are made via i-mode or the Internet. We also began accepting applications for and providing the handsets at DoCoMo Shops nationwide. Furthermore, we added Vietnam and Brazil in October and New Zealand in November 2005 to the areas where our international roaming-out services for packet communications are available. As of December 31, 2005, we expanded the service area of international roaming-out services for voice calls and Short Messaging Service (SMS) to 130 countries and areas; for packet communications to 60 countries and areas; and for videophone calls to 20 countries and areas.

Note:

ARPU: Average monthly revenue per unit

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as monthly charges, voice transmission charges and packet transmission charges, from designated services which are incurred consistently each month, by number of active subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures provide useful information regarding the average usage of our subscribers. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter. See page 14 for the details of the calculation methods.

#### Note:

For periods beginning after March 31, 2005, international services, which were previously included in "Miscellaneous businesses," are included in "Mobile phone businesses." As a result thereof, certain reclassifications are made to the operating results for the nine months ended December 31, 2004.

#### (2) PHS business

Operating revenues were \(\frac{\text{\frac{4}}}{33.2}\) billion and operating loss was \(\frac{\text{\frac{4}}}{3.1}\) billion.

- In order to concentrate our business resources on FOMA services, we ceased accepting new PHS subscriptions on April 30, 2005.
  - \* In January 2006, we have announced our intention to cease PHS services during the three months ending December 31, 2007. The actual date of the termination will be determined while monitoring the usage trends of the current subscribers.
- ARPU was ¥3,300.

#### Note:

See page 14 for the details of the ARPU calculation methods.

#### (3) Miscellaneous businesses

Operating revenues were \(\frac{\text{\frac{4}}}{27.5}\) billion and operating loss was \(\frac{\text{\frac{4}}}{1.3}\) billion.

- For our public wireless LAN service, "Mzone," we reduced the monthly charges in December 2005. The number of our domestic hot spots increased to 841 as of December 31, 2005.
- In April 2005, in consideration of the continuous decline in the number of Quickcast subscribers, we decided to terminate the services on March 31, 2007.

#### 3. Capital Expenditures

Total capital expenditures were ¥608.5 billion.

• We expanded the coverage areas of FOMA services, including a rollout of "FOMA Plus Area," which enables calls in mountainous areas, where previous FOMA handsets could not make calls; reinforced our FOMA network to meet the increase in demand; and constructed networks and equipment to provide new services, such as our "PushTalk" service. On the other hand, we continued our efforts to make our capital expenditures more efficient and less costly by saving on acquisition costs of equipment and improving the design and construction process. Compared to the nine months ended December 31, 2004, when we had completed the construction of four buildings for telecommunications equipment, total capital expenditures during the nine months ended December 31, 2005 decreased by 3.9%.

(UNAUDITED)         (UNAUDITED)         (UNAUDITED)         (UNAUDITED)         Increase           Nine months ended December 31, 2005         Nine months ended December 31, 2004         Increase (Decrease)           Mobile phone business         ¥ 515.4         ¥ 523.6         ¥ (8.2) (1.6%)           PHS business         0.7         3.3         (2.6) (77.7)           Other (including information systems)         92.4         106.1         (13.8) (13.0)           Total capital expenditures         ¥ 608.5         ¥ 633.1         ¥ (24.6) (3.9%)	<breakdown capital="" expenditures="" of=""></breakdown>	Billions of yen

Note:

For periods beginning after March 31, 2005, capital expenditures for Quickcast business, which were presented separately in past releases, are included in "Other (including information systems)." As a result thereof, certain reclassifications are made to the capital expenditures for the nine months ended December 31, 2004.

#### 4. Cash Flow Conditions

- Net cash provided by operating activities was ¥1,044.7 billion (up 81.4% compared to the same period of the prior year). Net cash provided by operating activities increased mainly owing to a decrease in the payment of income taxes, which was ¥540.2 billion in the same period of the prior year, to ¥182.5 billion and refund of income taxes of ¥93.1 billion. Because December 31 is a bank holiday in Japan, cash transactions, mainly receipt of cellular bills, that would normally be settled on the last day of each month are actually settled at the beginning of January. This had a net negative impact of ¥226.0 billion on net cash provided by operating activities for the period.
- Net cash used in investing activities increased to ¥794.0 billion (up 142.2% compared to the same period of the prior year). Purchases of non-current investments, which were ¥22.9 billion in the same period of the prior year, increased to ¥214.8 billion resulting from our investments in Sumitomo Mitsui Card Company, Limited and KT Freetel Co., Ltd. In addition, proceeds from the sale of non-current investments, which were ¥725.9 billion in the same period of the prior year, when we sold AT&T Wireless Services, Inc. shares, decreased to ¥25.1 billion. Changes in investments for cash management purposes, which were outflows of ¥361.3 billion in the same period of the prior year, were inflows of ¥13.6 billion.
- Net cash used in financing activities was ¥442.1 billion (down 28.4% compared to the same period of the prior year). Net cash used in financing activities decreased mainly due to decreases in repayments of outstanding debt and payments to acquire treasury stock.
- Free cash flows were \(\frac{\text{\tilde{\text{\texi{\text{\texi{\text{\text{\text{\text{\text{\text{\text{\ter

Debt ratio	<b>19.0%</b> 19.5% (0.5 points)		oints)		

#### Notes:

- Free cash flows = Net cash provided by (used in) operating activities + Net cash provided by (used in) investing activities
- Adjusted free cash flows excludes the effects of irregular factors and changes in investments for cash management purposes.

Irregular factors represent the effects of uncollected revenues due to bank holidays at the end of the nine months ended December 31, 2005 and 2004.

Changes in investments for cash management purposes were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than 3 months.

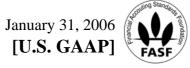

- Equity ratio = Shareholders' equity / Total assets
- Debt ratio = Interest bearing liabilities / (Shareholders' equity + Interest bearing liabilities)

## **Consolidated Financial Statements**

For the Nine Months Ended December 31, 2005

NTT DoCoMo, Inc. Name of registrant:

Code No.:

(URL http://www.nttdocomo.co.jp/)

Stock exchange on which the Company's shares are listed: Tokyo Stock Exchange-First Section

Representative: Contact:

Masao Nakamura, Representative Director, President and Chief Executive Officer Masahiko Yamada, Senior Manager, General Affairs Department / TEL +81-3-5156-1111

## 1. Notes Related to the Preparation of the Consolidated Financial Statements

(1) Adoption of simplified accounting methods:

No

(2) Difference in the accounting policies from the most recent fiscal year:

Yes (Reclassification of segment information)

Change of reporting entities

Number of consolidated companies added: Number of companies on equity method added: Number of consolidated companies removed: Number of companies on equity method removed:

Note: Six companies which were accounted for using the equity method are consolidated from this period.

9437

### 2. Consolidated Financial Results for the Nine Months Ended December 31, 2005 (April 1, 2005 - December 31, 2005)

(1) Consolidated Results of Operations

Amounts are rounded off to the nearest 1 million yen.

(Millions of yen, except per share amounts)

	Operating Revenues	Operating Income	Income before Income Taxes	Net Income
Nine months ended December 31, 2005	3,582,248 (1.7%)	693,480 (7.7%)	811,189 (35.1%)	516,399 (31.7%)
Nine months ended December 31, 2004	3,643,098 (4.8%)	751,350 (10.9%)	1,250,117 49.5%	756,536 53.1%
Year ended March 31, 2005	4,844,610	784,166	1,288,221	747,564

	Basic Earnings per Share	Diluted Earnings per Share
Nine months ended December 31, 2005	11,352.77 (yen)	11,352.77 (yen)
Nine months ended December 31, 2004	15,852.13 (yen)	15,852.13 (yen)
Year ended March 31, 2005	15,771.01 (yen)	15,771.01 (yen)

Notes: 1. The weighted average number of shares outstanding: For the nine months ended December 31, 2005: 45,486,620 shares

For the nine months ended December 31, 2004: 47,724,565 shares For the fiscal year ended March 31, 2005: 47,401,154 shares

### (2) Consolidated Financial Position

(Millions of yen, except per share amounts)

	Total Assets	Shareholders' Equity	Equity Ratio (Ratio of Shareholders' Equity to Total Assets)	Shareholders' Equity per Share
December 31, 2005	6,295,347	3,967,033	63.0%	89,016.07 (yen)
December 31, 2004	6,085,032	3,956,093	65.0%	85,098.53 (yen)
March 31, 2005	6,136,521	3,907,932	63.7%	84,455.27 (yen)

The number of shares outstanding as of December 31, 2005 and 2004, and March 31, 2005 was 44,565,359, 46,488,381 and 46,272,208, Note: respectively.

#### (3) Consolidated Cash Flows

(Millions of yen)

	Cash Flows from Operating Activities	Cash Flows from Investing Activities	Cash Flows from Financing Activities	Cash and Cash Equivalents at End of Period
Nine months ended December 31, 2005	1,044,703	(794,043)	(442,077)	579,964
Nine months ended December 31, 2004	575,992	(327,876)	(617,806)	464,428
Year ended March 31, 2005	1,181,585	(578,329)	(672,039)	769,952

#### 3. Consolidated Financial Results Forecasts for the Fiscal Year Ending March 31, 2006 (April 1, 2005 - March 31, 2006)

(Millions of yen)

	Operating Revenues		Net Income	
Year ending March 31, 2006	4,784,000	942,000	604,000	

(Reference) Expected earnings per share:

13,539.99 yen

1. There has been no change in our forecasts for the fiscal year ending March 31, 2006 since we announced the forecasts on October 28, 2005.

2. With regard to the above forecasts, please refer to page 16.

<sup>2.</sup> Percentage for operating revenues, operating income, income before income taxes and net income in the above tables represent changes compared to corresponding previous periods.

<sup>\*</sup> Consolidated financial statements are unaudited.

<sup>\*</sup> International service-related revenues, which had not been included in previous reports, have been included in the ARPU data calculation from the fiscal year ending Mar. 31, 2006, due to its growing contribution to total revenues.

[Notes associated with the above-mentioned change]

• International service-related ARPU included in the full-year forecasts and the first quarter, the second quarter, the third quarter and the nine months results of the fiscal year ending Mar. 31, 2006 are as below:

	FY2005				
	Nine months (AprDec. 2005) Results	First Quarter (AprJun. 2005) Results	Second Quarter (Jul-Sep. 2005) Results	Third Quarter (OctDec. 2005) Results	FY2005 (Ending Mar. 31, 2006) Full-year forecast
Aggregate ARPU (FOMA+mova)	40yen	30 yen	40yen	40yen	40 yen
Aggregate ARPU (FOMA)	70yen	60 yen	70yen	70yen	70 yen
Aggregate ARPU (mova)	30yen	20 yen	30yen	30yen	30 yen

<sup>\*</sup>ARPU data in our reports prior to fiscal year 2005 do not include International service-related revenues. ARPU generated from International services, derived from the revenues thereof, for the relevant periods are as below:

	FY2004 (Ended Mar. 31, 2005) Full-year result
Aggregate ARPU (FOMA+mova)	20 yen

<sup>\*</sup> Please refer to the attached sheet (P.14) for an explanation of the methods used to calculate ARPU, and the number of active subscribers used in calculating ARPU, MOU and Churn Rate.

(1) Source for other cellular telecommunications operators: Data announced by Telecommunications Carriers Association.

(2) DoPa Single Service subscribers are included in the calculation.

(3) Calculation does not include DoPa Single Service-related revenues and DoPa Single Service subscribers.

(4) Inclusive of circuit-switched data communications.

(5) MOU (Minutes of Usage): Average communication time per one month per one user

(6) Sum of FOMA handsets and mova handsets.

(7) The number of i-menu Sites charged per view are added to the existing number of i-menu Sites charged monthly fixed.

(8) Data on independent sites are from OH!NEW? by Digital Street Inc.

(9) Not inclusive of data communication time via @FreeD service.

(10) Percentage of data traffic to total outbound call time

(11) Included in total cellular subscribers.

#### **ARPU Calculation Methods**

## 1. ARPU (Average monthly revenue per unit)\*1

### i) ARPU (FOMA + mova)

Aggregate ARPU (FOMA+mova)=Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova) Voice ARPU (FOMA+mova): Voice ARPU (FOMA+mova) Related Revenues (monthly charges, voice

transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

Packet ARPU (FOMA+mova): {Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges)+ i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges)}/ No. of active cellular phone subscribers (FOMA+mova)

i-mode ARPU (FOMA+mova) \*2: i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

ARPU generated purely from i-mode (FOMA+mova) \*3: i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA+mova)

#### ii) ARPU (FOMA)

Aggregate ARPU (FOMA)=Voice ARPU (FOMA) + Packet ARPU (FOMA)

Voice ARPU (FOMA): Voice ARPU (FOMA) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA)

Packet ARPU (FOMA): Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission

charges) / No. of active cellular phone subscribers (FOMA) i-mode ARPU\*2 (FOMA) : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

ARPU generated purely from i-mode (FOMA)\*3: i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA)

#### iii) ARPU (mova)

Aggregate ARPU (mova)=Voice ARPU (mova) + i-mode ARPU (mova)

Voice ARPU (mova): Voice ARPU (mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (mova)

i-mode ARPU (mova) \*2 : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (mova)

ARPU generated purely from i-mode (mova) \*3: i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (mova)

## iv) ARPU (PHS)

ARPU (PHS): ARPU (PHS) Related Revenues (monthly charges, voice transmission charges) / No. of active PHS subscribers

## 2. Active Subscribers Calculation Methods\*1

No. of active subscribers used in ARPU/MOU/Churn Rate calculations are sum of No. of active subscribers\*4 for each month.

- \*1 DoPa single service subscribers and the revenues thereof are not included in the ARPU and MOU calculations.
- \*2 The denominator used in calculating i-mode ARPU (FOMA+mova, FOMA, mova) is the aggregate number of cellular subscribers to each service (FOMA+mova, FOMA, mova, respectively), regardless of whether i-mode service is activated or not.
- \*3 ARPU generated purely from i-mode (FOMA+mova, FOMA, mova) is calculated using only the number of active i-mode subscribers as a denominator.
- \*4 active subscribers = (No. of subscribers at the end of previous month + No. of subscribers at the end of current month) / 2

## (APPENDIX 3)

c. Total operating revenues

EBITDA margin (=a/c)

Net income margin (=b/c)

## Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures

#### 1. EBITDA and EBITDA margin Billions of yen Nine months ended Nine months ended **December 31, 2005** December 31, 2004 a. EBITDA ¥ 1,304.0 ¥ 1,243.3 Depreciation and amortization (532.0)(528.8)Loss on sale or disposal of property, plant and equipment (23.8)(17.1)Impairment loss (0.7)751.4 Operating income 693.5 Other income, net 117.7 498.8 Income taxes (293.9)(493.4)Equity in net losses of affiliates (0.9)(0.1)Minority interests in consolidated subsidiaries 0.0 (0.1)b. Net income 516.4 756.5

Note: EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of regulation S-K and may not be comparable to similarly titled measures used by other companies.

. Adjusted free cash flows	Billions of yen			
	Nine months ended December 31, 2005	Nine months ended December 31, 2004		
Adjusted free cash flows	¥ 463.1	¥ 845.4		
Irregular factors (1)	(226.0)	(236.0)		
Changes in investments for cash management purposes (2)	13.6	(361.3)		
Free cash flows	250.7	248.1		
Net cash used in investing activities	(794.0)	(327.9)		
Net cash provided by operating activities	1,044.7	576.0		

Note: (1) Irregular factors represent the effects of uncollected revenues due to bank holidays at the end of nine months ended December 31, 2004 and 2005.

<sup>(2)</sup> Changes in investments for cash management purposes were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months.

### **Special Note Regarding Forward-Looking Statements**

This Earnings Release contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as expected number of subscribers, and expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this report were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following:

- Competition from other cellular service providers or other technologies could limit our acquisition of new subscribers, retention of existing subscribers and average revenue per unit (ARPU), or may lead to an increase in our costs and expenses.
- The new services and usage patterns introduced by our corporate group may not develop as planned, which could limit our growth.
- The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group may adversely affect our financial condition and results of operations.
- The introduction of number portability in Japan may increase our expenses, and may lead to a decrease in our number of subscribers if our subscribers choose to switch to other cellular service providers.
- Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction.
- The W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers.
- Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.
- Our PHS business, which is expected to operate at a loss until the service is terminated, may incur greater losses than we project.
- As electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects, or missing of handsets or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations.
- Social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image.
- Inadequate handling of subscriber information by our corporate group or contractors may adversely affect our credibility or corporate image.
- Owners of intellectual property rights that are essential for our business execution may not grant us the
  right to license or otherwise use such intellectual property rights on acceptable terms or at all, which
  may limit our ability to offer certain technologies, products and/or services, and we may also be held
  liable for damage compensation if we infringe the intellectual property rights of others.
- Earthquakes, power shortages, malfunctioning of equipment, and software bugs, computer viruses, cyber attacks and other problems could cause systems failures in our networks, handsets or other networks required for the provision of service, disrupting our ability to offer services to our subscribers.
- Concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations.
- Our parent company, Nippon Telegraph and Telephone Corporation (NTT), could exercise influence that may not be in the interests of our other shareholders.
