

Appendix

The BlackBerry Bold smartphone from DOCOMO features:

- An elegant design measuring 114mm x 66mm x 15mm and weighing approximately 136 grams
- Quad-band HSDPA and quad-band GSM/EDGE support for global roaming*
- Stunning HVGA (480x320 resolution at 217 ppi) color display with LCD fused to the underside of the lens for eye-popping definition and clarity
- Enhanced, HTML browser delivers high performance with desktop-style depiction
- Enterprise-grade Wi-Fi (802.11 a/b/g)
- Built-in GPS with support for location based applications and services
- 1 GB on-board storage memory, as well as an externally accessible microSD/SDHC memory card slot for up to 16GB of additional storage**
- A removable/rechargeable 1500 mAh battery
- An optional 2 megapixel camera with digital zoom, built-in flash and video recording
- Advanced media player for viewing pictures, listening to music and watching videos; support for High Speed USB 2.0 enables quick file transfers between a PC and the smartphone
- BlackBerry® Desktop Manager software, which includes Roxio® Media Manager for BlackBerry®, a powerful media manager application that allows users to easily manage media files on their computer and transfer them to the smartphone; the BlackBerry Bold also comes with the new BlackBerry® Media Sync application for customers that want a simple way to sync their iTunes® digital music collections with the smartphone***
- Instant messaging with BlackBerry® Messenger, Google® Talk, Windows Live Messenger™ and Yahoo!® Messenger
- Support for the Facebook® for BlackBerry® Smartphones application, which enables fast, streamlined and optimized mobile access to the popular Facebook social utility
- Premium phone features including voice activated dialing, enhanced noise cancellation to offset background noise, a low-distortion speakerphone, and Bluetooth® (2.0) support for hands-free use with headsets, car kits, stereo headsets and other Bluetooth peripherals
- BlackBerry® Internet Service support that allows access to up to 10 supported personal and corporate email accounts, including most popular ISP email accounts
- BlackBerry® Enterprise Server support for enterprise deployments, providing advanced security and IT controls within IBM® Lotus® Domino®, Microsoft Exchange and Novell® GroupWise® environments, in which Japanese localization is available for IBM® Lotus® Domino® and Microsoft Exchange.

** Check with service provider for roaming services.*

*** microSD/SDHC memory cards are available today in configurations of up to 8GB and the BlackBerry Bold is expected to support upcoming 16GB microSD/SDHC cards.*

**** Certain music files may not be supported, including files that contain digital rights management technologies.*
