

# Earnings Release for the Nine Months Ended December 31, 2003

# **DoCoMo's Performance on Pace with Annual Targets**

i-mode subscribers exceed 40 million and FOMA subscribers grow faster

Consolidated financial results of NTT DoCoMo, Inc. and its subsidiaries (collectively "we" or "DoCoMo") for the nine months ended December 31, 2003 (April 1, 2003 to December 31, 2003), are summarized as follows.

# << Highlights of Financial Results >>

- For the nine months ended December 31, 2003, operating revenues were \(\frac{\pmathbf{x}}{3},828.3\) billion, operating income was \(\frac{\pmathbf{x}}{843.0}\) billion, income before income taxes was \(\frac{\pmathbf{x}}{836.0}\) billion and net income was \(\frac{\pmathbf{x}}{494.2}\) billion.
- Earnings per share were ¥9,914.38 and EBITDA margin\* was 36.5%.

- 1. DoCoMo did not prepare consolidated financial statements as of and for the nine months ended December 31, 2002.
- 2. Consolidated financial statements in this release are unaudited.
- Amounts in this release are rounded off.
- \* EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of EBITDA, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on page 15.

### << Comment by Keiji Tachikawa, President and CEO >>

During the first three quarters of the fiscal year ending March 31, 2004, the number of cellular phone subscribers in Japan grew by a net of 4.13 million, of which DoCoMo acquired 1.5 million. Despite the increasing competition, we achieved ¥3,828.3 billion in operating revenues, ¥843.0 billion in operating income and ¥494.2 billion in net income in the nine months ended December 31, 2003.

With our "FOMA" service reaching 1.88 million subscribers at the end of December 2003 (exceeding 2 million subscribers as of January 29, 2004), we revised the target number of subscribers as of March 31, 2004 upwards to 2.4 million. Building upon our progress to date, we aim to achieve a leap forward in the "FOMA" business in the year 2004. To this end, we plan to further increase FOMA's product line-up with the release of "FOMA 900i" series handsets, improve both outdoor and indoor coverage including subway stations, and enhance the quality of services and applications in an effort to ensure subscribers' smooth migration to "FOMA".

As of December 31, 2003, the number of "i-mode" subscribers grew to 40.33 million, or approximately 88.9% of our total cellular subscriber base. Meanwhile, the number of subscribers using "i-appli" and "i-shot"-compatible handsets exceeded 20 million in both cases. We believe the popularity of these advanced handsets indicates that our "multimedia" strategy is making tangible progress.

We intend to make further innovations and enhancements to our "i-mode" services, which will increase convenience in user's daily lives, while offering even more attractive rate packages, in order to reinforce our competitiveness and thereby solidify our business foundation.

- (i) In November 2003, we commenced a new billing arrangement called "Nikagetsu Kurikoshi," in which the subscribers can carry over their unused allowances (free minutes and/or packets) included in the base monthly charges up to the following two months. For the nine months ended December 31, 2003, we deferred revenues from the base monthly charges with respect to the unused allowances that are carried over to January 2004 and the following month. The deferred revenues were ¥19.5 billion at December 31, 2003.
- (ii) Effective April 1, 2002, DoCoMo adopted Emerging Issues Task Force ("EITF") Issue No. 01-09, "Accounting for Consideration Given by a Vendor to a Customer or a Reseller of the Vendor's Products." The initial adoption of EITF 01-09 resulted in the recognition of cumulative effect of an accounting change in the year ended March 31, 2003.

### 1. Business Overview

- (1) Operating revenues totaled ¥3,828.3 billion.
  - Cellular (mova) services revenues were \( \frac{\text{\frac{4}}}{2},414.3 \) billion.

Despite our efforts to increase the number of cellular (mova) services subscribers by promoting handsets with sophisticated features such as mega-pixel cameras and providing new services such as "Melody Call," the number of cellular (mova) services subscribers decreased mainly due to progress in the migration of subscribers from "mova" services to "FOMA" services.

• Cellular (FOMA) services revenues were ¥82.0 billion.

The number of cellular (FOMA) services subscribers increased as a result of strengthening both our

lineup of handsets and our service functions as well as improving the coverage area by introducing

micro base stations.

• Packet communications services revenues were ¥772.8 billion.

The number of "i-mode" services subscribers increased due to wider penetration of handsets equipped with "i-appli" and built-in cameras. Furthermore, the usage of "i-mode" services was boosted mainly through a further increase of content utilizing new functions of "mova 505iS" series handsets and content utilizing "i-appli DX."

### Notes:

- (i) Due to a new billing arrangement called "Nikagetsu Kurikoshi," ¥17.3 billion, ¥2.1 billion and ¥0.1 billion were deferred from cellular (mova) services revenues, cellular (FOMA) services revenues and packet communications services revenues, respectively.
- (ii) Cellular (FOMA) services revenues include packet communications services revenues from "FOMA" subscribers, which amounted to ¥26.7 billion and ¥4.7 billion for the nine months ended December 31, 2003 and the year ended March 31, 2003, respectively.
- (iii) Due to the adoption of EITF 01-09, equipment sales for the nine months ended December 31, 2003, and the year ended March 31, 2003, decreased by ¥495.5 billion and ¥558.9 billion, respectively.

### (2) Operating expenses were \(\frac{\text{\frac{4}}}{2},985.3\) billion.

- Personnel expenses were ¥187.5 billion.
  - DoCoMo had 22,021 employees as of December 31, 2003, representing an increase of 1,229 employees since March 31, 2003.
- Non-personnel expenses were ¥1,919.6 billion.

  Revenue-linked variable expenses, including cost of equipment sold, sales commissions paid to

agent resellers and costs related to point loyalty programs, represented the largest portion of non-personnel expenses and accounted for approximately 70% of the non-personnel expenses.

• Depreciation and amortization expenses were ¥533.5 billion.

Capital expenditures\* for the nine months ended December 31, 2003, were ¥521.9 billion.

### 2. <u>Segment Information</u>

(1) Mobile phone business

Operating revenues were \(\frac{\pmathbf{x}}{3}\),747.4 billion and operating income was \(\frac{\pmathbf{x}}{8}\)70.8 billion.

- Cellular (mova) services
  - The number of cellular (mova) services subscribers as of December 31, 2003, decreased to 43.48 million (down 0.1% compared to the number of subscribers as of March 31, 2003). We implemented several initiatives such as reinforcing the lineup of the products by releasing the "mova 505iS" series handsets featuring mega-pixel cameras and the "mova 252i" series handsets, and enriching our network services such as our "Melody Call" service that enables subscribers to set their preferred music or voice contents as ring back tones. However, due to progress in migration of subscribers from "mova" services to "FOMA" services, the number of cellular (mova) services subscribers began to decrease in September 2003.
  - Voice ARPU, "i-mode" ARPU and aggregate ARPU of cellular (mova) services were ¥6,040,
     ¥1,960 and ¥8,000, respectively.

### • Cellular (FOMA) services

- The number of cellular (FOMA) services subscribers as of December 31, 2003, increased to 1.88 million (up 470.0% compared to the number of subscribers as of March 31, 2003), as we expanded the coverage of our "FOMA" network (approximately 98% nationwide population coverage as of December 31, 2003), reinforced indoor coverage areas in buildings and underground malls, and strengthened the handsets lineup and service features by adding new color variations on "FOMA P2102V" handsets featuring videophone capability, releasing the compact flash card type terminal, "FOMA P2402," improving the receiving function of e-mails under our "Dual Network Service," and reinforcing the functions related to sending and receiving e-mails with photos attached through the "i-shot" service between "FOMA" and "mova" subscribers.
- Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA) services were ¥6,850, ¥3,360 and ¥10,210, respectively.

<sup>(</sup>i) Due to the adoption of EITF 01-09, non-personnel expenses for the nine months ended December 31, 2003, and the year ended March 31, 2003, decreased by ¥466.5 billion and ¥571.2 billion, respectively.

### • "i-mode" services

- We actively implemented initiatives to boost the usage of our "i-mode" services subscribers such as enabling subscribers to link with other platforms through "i-mode" services by equipping the "mova 505iS" series handsets with a bar code reader function.
- To nurture a sound mobile internet environment, we started an access control service that enables "i-mode" users to limit their mobile internet surfing to sites listed on the official "i-mode" menu, reinforced our measures against unsolicited bulk e-mailers including suspension of their services and termination of their contracts, and enabled "i-mode" users to block all e-mails from user-selected domains of other cellular or PHS companies.
- As a result of these initiatives, the number of "i-mode" services subscribers reached 40.33 million (up 6.8% compared to the number of subscribers as of March 31, 2003).
- Overseas expansion of "i-mode" services has progressed and the number of "i-mode" users worldwide has been increasing as we signed an "i-mode" license agreement with COSMOTE Mobile Telecommunications S.A., a Greek carrier, in November 2003, Telefónica Móviles España, S.A., a Spanish carrier, began "i-mode" service as a part of Movistar e-moción service in June 2003, and Wind Telecomunicazioni S.p.A., an Italian carrier, began "i-mode" services in November 2003.

#### Notes:

ARPU: Average monthly revenue per unit

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues from our Wireless services, such as monthly charges, voice transmission charges and packet transmission charges, from designated services, by number of active subscribers to the relevant services. We believe that our ARPU figures provide useful information regarding the average usage of our subscribers. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter.

- Voice ARPU (cellular (mova) services): Voice ARPU (cellular (mova) services) Related Revenues (monthly charges and voice transmission charges) / Number of active subscribers (cellular (mova) services)
- Voice ARPU (cellular (FOMA) services): Voice ARPU (cellular (FOMA) services) Related Revenues (monthly charges and voice transmission charges) / Number of active subscribers (cellular (FOMA) services)
- "i-mode" ARPU (cellular (mova) services): "i-mode" ARPU (cellular (mova) services) Related Revenues (monthly charges and packet transmission charges) / Number of active subscribers (cellular (mova) services)
- Packet ARPU (cellular (FOMA) services): Packet ARPU (cellular (FOMA) services) Related Revenues (monthly charges
  and packet transmission charges) / Number of active subscribers (cellular (FOMA) services)
- Aggregate ARPU (cellular (mova) services): Voice ARPU (cellular (mova) services) + "i-mode" ARPU (cellular (mova) services)
- Aggregate ARPU (cellular (FOMA) services): Voice ARPU (cellular (FOMA) services) + Packet ARPU (cellular (FOMA) services)
- Number of active subscribers (cellular (mova) services): (Number of subscribers at the end of March 2003 + number of subscribers at the end of December 2003) / 2 x 9 months
- Number of active subscribers (cellular (FOMA) services): Sum of number of active subscribers ((Number of subscribers at the end of previous month + number of subscribers at the end of current month) / 2) for each month from April to December 2003

### (2) PHS business

Operating revenues were ¥57.7 billion and operating loss was ¥28.1 billion.

- The number of PHS subscribers decreased to 1.63 million (down 3.6% compared to as of March 31, 2003). The number of data-card-type PHS subscribers increased as a result of our initiatives to primarily promote usage of a fixed-fee service for data communications, including our efforts to increase system integrators (SI) and internet service providers (ISP) as an access provider for our fixed-fee data-communication service, "@FreeD," and the optimization of the fixed-fee network in accordance with the data traffic. However, the net decrease in the number of handset-type PHS subscribers exceeded the net increase in the number of data-card-type PHS subscribers.
- PHS ARPU was ¥3,490.

### (4) Miscellaneous business

Operating revenues were ¥18.5 billion and operating income was ¥1.5 billion.

- We started an international videophone call service between our "FOMA" videophone users and videophone users of Hutchison 3G UK Ltd., a UK carrier, in October 2003.
- We expanded the service area of "Mzone," a public wireless LAN service, which had 218 hot spots

as of December 31, 2003 and introduced a "daily plan," under which users can connect up to 24 hours with a fixed daily fee, in addition to an existing monthly plan.

# 3. Capital Expenditures

Total capital expenditures\* were ¥521.9 billion.

• We expanded both the indoor and outdoor coverage areas of our "FOMA" services (approximately 98% nationwide population coverage as of December 31, 2003) through the introduction of economical micro base stations and promoted the construction of fiber-optic transit networks and IP router networks. In addition, we implemented various measures to make our capital expenditures more efficient by reducing acquisition costs of equipment and improving the design and construction process.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited consolidated financial information of DoCoMo has been prepared in accordance with accounting principles generally accepted in the United States of America.

The followings are explanations regarding the adoption of new accounting principles and the accounting policy for our new billing arrangement.

### 1. Adoption of new accounting principles:

### Accounting for asset retirement obligations

Effective April 1, 2003, DoCoMo adopted Statement of Financial Accounting Standards ("SFAS") No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 requires that legal obligations associated with the retirement of tangible long-lived assets be recorded as a liability and measured at fair value, when those obligations are incurred if a reasonable estimate of fair value can be made. Upon initially recognizing a liability for an asset retirement obligation, an entity must capitalize the cost by recognizing an increase in the carrying amount of the related long-lived asset.

DoCoMo's asset retirement obligations subject to SFAS No. 143 primarily relate to its obligations to restore leased land and buildings for DoCoMo's wireless telecommunications equipment to their original state. DoCoMo estimates the fair value of the liability for those obligations.

The adoption of SFAS No. 143 did not have a significant impact on the results of operations or the financial position of DoCoMo.

### Amendment of SFAS No. 133 on derivative instruments and hedging activities

Effective July 1, 2003, DoCoMo adopted SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS No. 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities."

The adoption of SFAS No. 149 did not have a significant impact on the results of operations or the financial position of DoCoMo.

### 2. Accounting policy for a new billing arrangement:

# Revenue recognition regarding "Nikagetsu Kurikoshi" (two-month carry over) billing arrangement

DoCoMo's monthly rate plans for cellular ("mova" and "FOMA") services generally include a certain amount of allowances (free minutes and/or packets), and the used amount of the allowances is credited against total usage in calculating the airtime revenue from a subscriber for the month. Prior to November 1, 2003, the total amount of the base monthly charges was recognized as revenues in the month they were charged as the subscribers could not carry over the unused allowances to the following months. On November 1, 2003, DoCoMo introduced a new billing arrangement, called "Nikagetsu Kurikoshi" (two-month carry over), in which the subscribers can carry over their unused allowances up to the following two months. Beginning with the introduction of this new billing arrangement, DoCoMo has started to defer revenues based on the portion of unused allowances that are estimated to be utilized during the following two months. The deferred revenues are recognized as revenues as the subscribers make calls or data communications, similar to the way airtime revenues are recognized.

### **Special Note Regarding Forward-Looking Statements**

This Earnings Release contains forward-looking statements such as forecasts of results of operations, policies, management strategies, objectives, plans, recognition and evaluation of facts, expected number of subscribers, financial results and prospects of dividend payments. All forward-looking statements that are not historical facts are based on management's current expectations, assumptions, estimates, projections, plans, recognition and evaluations based on the information currently available. The projected numbers in this report were derived using certain assumptions that are indispensable for making projections in addition to historical facts that have been acknowledged accurately. These forward-looking statements are subject to various risks and uncertainties. Known and unknown risks, uncertainties and other factors could cause the actual results to differ materially from those contained in or suggested by any forward-looking statement. DoCoMo cannot promise that its assumptions, expectations, projections, anticipated estimates or other information expressed in these forward-looking statements will turn out to be correct. Potential risks and uncertainties include, without limitation:

- The successful development of our 3G services is subject to market demand.
- The introduction or change of various laws or regulations could have an adverse effect on our financial condition and results of operations.
- Changes in the current system for setting tariffs and forms of communications between the telecommunications carriers may negatively affect our profitability.
- Increasing competition from other cellular services providers or other technologies, or rapid changes in market trends, could have an adverse effect on our financial condition and results of operations.
- Our acquisition of new subscribers, retention of existing subscribers and revenue per unit may not be as high as we expect.
- Subscribers may experience reduced quality of services because we have only a limited amount of spectrum and facilities available for our services.
- The W-CDMA technology that we use for our 3G system may not be introduced by other operators, which could limit our ability to offer international services to our subscribers.
- Our international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.
- The performance of our PHS business may not improve as we expect and the business may continue to operate at a loss in the future.
- Our "i-mode" system is subject to various inappropriate uses, such as unsolicited bulk e-mail, which
  could decrease customer satisfaction with our services, congest our system and adversely affect our
  financial results.
- Our parent, NTT, could exercise influence that may not be in the interests of our other shareholders.
- Concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations.
- System failures caused by earthquakes, power shortages or software and hardware malfunctions may adversely affect our financial condition and results of operations.
- Computer viruses and cyber attacks may harm our network systems and other communication systems using cellular phones.
- Volatility and changes in the economic conditions and securities market in Japan and other countries may have an adverse effect on our financial condition and results of operations.
